About Me

A passionate full-stack developer specializing in modern web technologies, with extensive experience in Next.js, React, and Node.js. Currently pursuing a Bachelor's in Computer Science, I have developed multiple production-ready applications focusing on user authentication, API integration, and responsive design. Seeking an internship opportunity to contribute to innovative web development projects while expanding my technical expertise in modern JavaScript frameworks and cloud technologies.

Soft Skills

- **Problem-Solving:** Strong analytical and debugging skills with focus on efficient solutions
- **Team Collaboration:** Experience working in Agile development environments
- **Communication:** Excellent verbal and written communication skills
- **Time Management:** Proven ability to manage multiple projects and meet deadlines
- **Adaptability:** Quick learner with ability to adapt to new technologies

Technical Skills

Frontend Development: React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), TypeScript

Backend Development: Node.js, Express.js, RESTful APIs, Java Servlets, JSP

Database Technologies: MongoDB, MySQL, PostgreSQL, MSSQL

Development Tools: Git, GitHub, VS Code, Postman, PowerBI

UI Frameworks: Tailwind CSS, Bootstrap, Material-UI

Authentication & Security: NextAuth, JWT, OAuth 2.0, Session Management

Development Practices: Agile Methodology, Version Control, CI/CD, Test-Driven Development

Projects

Personal Portfolio Website (In Development) [View Live Demo](#)

Developing a modern portfolio website using Next.js and Tailwind CSS, featuring a responsive design, dark/light mode functionality, smooth page transitions, and interactive UI components. The project is deployed continuously on Vercel through an automated CI/CD pipeline, with ongoing feature additions and performance optimizations.

Edu Connect - Social Learning Platform [View Project](#)

Built a full-stack social learning platform using Next.js, Node.js, and PostgreSQL. Integrated real-time messaging with Socket.io, utilized Prisma ORM for database management, and designed an interactive, responsive UI using Tailwind CSS. The platform allows users to post questions, engage in discussions, and collaborate effectively.

Next.js AI-Powered Messaging Platform [View Project](#)

Developed an AI-driven messaging platform using Next.js, Node.js, and MongoDB. Integrated OpenAI APIs for message suggestions and implemented a secure message encryption system. The project also features user authentication via JWT and uses TypeScript for improved maintainability and reliability.

Authentication System [View Project](#)

Implemented a robust OAuth authentication system using NextAuth.js, supporting multiple providers such as Google and GitHub. Designed secure session management with JWT tokens and integrated role-based access control, ensuring protected routes and user-specific permissions.

Todo Application with Next.js [View Project](#)

Created a full-stack todo application using Next.js, with features like authentication, CRUD operations, and dynamic task filtering. Optimized performance through optimistic updates and designed an intuitive, responsive UI. Efficient state management was achieved using React Context and custom hooks.

Education

Bachelor of Science in Computer Science

London Metropolitan University (2021 - Present)

- Relevant Coursework: Data Structures & Algorithms, Web Development, Database Systems, Software Engineering
- Expected Graduation: 2025

Languages

- English (Professional Working Proficiency)
- Nepali (Native Proficiency)
